

Business Benefits Realisation

Introduction

The purpose of the course is to enable delegates to gain a clear understanding of how benefits are managed from a project and programme perspective. The course is delivered in the context of both Managing Successful Programmes and PRINCE2® project management environments.

Who Will Benefit?

This course is aimed at managers and leaders responsible for delivering a number of projects for a single client. Those who will particularly benefit are:

- Programme Managers
- Business Change Managers
- Project Board Members
- Project Managers
- Project Support and Assurance personnel

Course Content

- Introduction
- What is Benefits Management?
- The Challenge of managing benefits
- How to deal with "soft" benefits?
- The relationship between outcomes and benefits
- Identifying, modelling and quantifying benefits
- Linking benefits to the business case and the project lifecycle
- "You get what you measure" so what are you going to measure?
- How to get stakeholder buy in
- Responsibilities for benefits realisation

Prerequisites

Attendees should have some knowledge of project and programme management principles.

Duration

The course is a two-day practical workshop based event.

Steria's Pedigree

Working in partnership with Steria has benefited our international client base since 1985 by giving them access to acknowledged experts in the provision of world-class project and programme services.

We have consistently been in the forefront of innovation and delivery in the fields of Education, Training and Consultancy. For example, we were designers and co-authors of the PRINCE2® Project Management method and remain closely involved in its development.

All our consultant lecturers are experienced practitioners who actually do the job, thus ensuring that they bring relevant and up-to-date practical experience to their training and consultancy.

About Steria

Steria is an international business process and IT services company. We create and deliver process and technology solutions that significantly improve clients' business performance. Through strong relationships, commercial innovation and our integrated Indian delivery capability, we drive real and long-term cost reductions, performance improvements and new ways of working tailored to each client.
