

PRINCE2® Foundation Only

Introduction

PRINCE2® is the project management method that provides a guiding framework of processes, principles and techniques and has been proven to be effective on a vast array of projects.

PRINCE2® offers a business-based and generic, rather than technically specific, process that can be readily applied to a wide variety of large and small business projects. PRINCE2® works equally effectively in a standalone, or a programme environment.

The Steria PRINCE2® Foundation course is designed to provide a thorough insight into PRINCE2® and give you the best possible preparation for exam success.

Who Will Benefit?

This course is particularly suited to anyone requiring the qualification and/or who needs to understand the practical application of PRINCE2®. It is particularly aimed at:

- Project managers - who wish to gain an understanding of PRINCE2®, perhaps with a view to taking the practitioner certificate at a later date
- Project team managers or leaders - who are working in a PRINCE2® environment and who need an understanding of the approach
- Project support personnel and project auditors – who will benefit from the practical insight offered by this course into the flexible application of PRINCE2®
- Team members - who will be working in a PRINCE2® environment
- Senior managers and project board personnel - who need to understand their roles and gain a practical insight into the flexible application of PRINCE2®
- Project assurance and project audit staff - who need to understand the PRINCE2® approach in order to execute their responsibilities effectively
- Consultants - wishing to demonstrate credibility and be able to apply the method for their clients
- Programme management personnel – who wish to understand how PRINCE2® operates within a Programme environment.
- Anybody wishing to assess the suitability of PRINCE2® for their project or across their organisation.

Course Content

- Introduction to PRINCE2®
- Project organisation
- Starting up a project
- Initiating a project
- Business case
- Directing a project
- Plans
- Planning
- Product based planning
- Quality in a project environment
- The management of risk
- Quality review

The course is delivered in an entertaining and highly interactive manner with many real life examples used to illustrate the subject. There is a high degree of delegate participation, examination preparation and practice.

Prerequisites

There are no specific prerequisites for attending, delegates are sent a copy of the manual prior to the course and pre-reading will dramatically increase the chance of success in the examination.

Duration

This is a three-day event, with the foundation examination taken at the end of day three. You will be expected to undertake evening work, as homework will be set on this course.

Examinations

The foundation examination lasts one hour and is a closed book, multiple choice paper. A pass mark of 50% or higher is required.

Accreditation

This course is accredited by the APM Group.
