

PRINCE2® Overview

Introduction

PRINCE2® is the project management method that provides a guiding framework of processes, principles and techniques and has been proven to be effective on a vast array of projects.

PRINCE2® offers a business-based and generic rather than technically specific process that can be readily applied to a wider variety of large and small business projects. PRINCE2® works equally effectively in a stand-alone or in a programme environment.

Introduction to PRINCE2® is a one-day seminar that provides an overview of the content and format of the method, together with guidance on its strengths, weaknesses and application. As a result of attending the day, you will be able to assess whether PRINCE2® is an appropriate method for your organisation.

Who Will Benefit?

This seminar is suited to anybody wanting a short but thorough appreciation of PRINCE2®.

This will include:

- Senior business managers - wishing to achieve a more dynamic and responsive management structure that is project oriented, and who want to ensure a business focused approach to managing projects
- Managers of project departments - who are considering the need for a methodology, or those who wish to assess the applicability of the method to their existing procedures, practices and culture
- Suppliers to users of PRINCE2® - and who must use PRINCE2® on their clients' projects
- Experienced project managers - wishing to understand PRINCE2®
- Recently appointed project managers - who need a framework to guide them in directing and controlling a project
- Project managers - who are thinking of becoming accredited as PRINCE2® registered practitioners and need an introduction to the method
- Consultants - who need an awareness of PRINCE2® for advising client companies on its applicability or us Seminar content

Course Content

- Overview of the PRINCE2® approach to project management
- Business case
- Project organisation
- The PRINCE2® planning structure
- Project control
- Management of risk
- Quality management
- Configuration management
- Change control
- The PRINCE2® process model
